## INTRODUCTION

Welcome to another new year and a new decade! For many, the year began with the devastating and widespread impact of the bushfires throughout Australia. With a fire season that began in September, the resources applied in dealing with this have been stretched beyond their limits. Some of our members and friends have been directly affected while all of us realise that something has to be done to avoid a repeat of this level of disaster.

The threat from coronavirus has remained in the headlines for some weeks and the impact is now being seen directly with vessels and their crews subject to quarantine measures.

The reduced sulphur limits on bunker fuels came into force on 1 January 2020. Availability of compatible fuels has been an issue in this part of the world while it is expected that supply and pricing will find a more reliable level.

A number of events are in the planning for 2020, so please keep your eyes open for details and please make some effort in participating in your Institute.

## TED RENSHAW AWARD

It is with much pride that we congratulate **Capt. Norman Lopez** our Education Officer, in being presented with the **Ted Renshaw Award** in London in October 2019.

As stated by Ms Julie Lithgow, the President of the ICS, "There is a very special group of people who assist and support our 5,000 students across the globe each year, and this is the army of examiners, assessors and tutors who devote their time to maintaining the educational foundation of this Institute.

They say that every organisation is as good as the people working in it. This is even more true when these people are volunteers. Our membership is our strength.

There is an African proverb, which says: if you want to go fast, go alone. If you want to go far, go with others. I don't have an Australian proverb, but we do have an Australian example that exemplifies enthusiasm and professionalism.

The **Ted Renshaw Award** is presented to those tutors and examiners who embody the spirit and ethos of Ted's unstinting enthusiasm and positivity. This year, we would like to present this to Norman Lopez - Norman has supported the Institute for many years within the Australia and New Zealand branch, as a Member, Fellow and recently as the branch Education Officer. His wisdom, patience and guidance is valued by all who have had the privilege to work or volunteer alongside him.

*Norman with Julie Lithgow at the podium*

The Bristol Steamship Owners Association, for whom Ted was a past President have commissioned a decanter of Bristol Blue Glass for this award and I invite Nigel Fletcher the President of the Bristol Maritime Trade Association to present this to Norman Lopez."
